COMPACT MICROWAVE

**800W Microwave Power**  
For efficient cooking

**6 Auto Menus**  
Preprogrammed for convenience

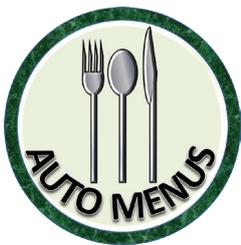

**Weight Defrost**  
Simple defrosting

**3 Stage Cooking Sequence**  
Combine cooking powers

**More/Less Setting**  
To suit your taste preferences

## AUSTRALIAN DEVELOPED MENUS

At Sharp Australia, we are firmly committed to meeting Australia's cooking preferences. All menus, auto/manual cooking charts and recipes for Sharp microwave ovens are developed and tested with locally sourced produce and the Australian consumer in mind. Building on over 50 years of experience, the Sharp range of conventional, convection, grill and steam commercial microwave ovens offer great technology, such as innovative flatbed, sensor and inverter technologies that blend into your kitchen décor and make it easy to produce meals quickly with food that looks and tastes great.

### Auto Menu

6 popular auto menus have been tested and developed by our Sharp Test Kitchen to provide efficient and convenient cooking and reheating. These menus have been automatically set with a time and microwave power level to ensure your food is cooked or reheated to perfection. Auto menus include reheat Dinner Plate, reheat Beverage, Fresh Vegetables, Frozen Vegetables, Jacket Potato, Rice/Pasta.

### 3 Stage Cooking Sequence

This simple function is a fantastic microwave addition when you need to cook using multiple microwave powers, such as when you need to defrost food and then cook it. You can pre-program the microwave powers and cook times all at once, leaving the microwave to automatically switch from one power level to another.

### More/Less Setting

The cooking times programmed on the automatic menus have been tailored by the Sharp Test Kitchen to suit the average Australian tastes. However, at Sharp, we know these cook times will not suit all individual taste preferences. With this great feature, you can adjust the cooking time to either add (more) or reduce (less) cooking time.

## CONVENIENCE

### Weight Defrost

There is no need to stress over frozen meat which you have forgotten to defrost. This wonderful and easy feature is so convenient when it comes to defrosting popular varieties of meat. Our Sharp Test Kitchen has already determined the correct power level and the appropriate defrosting time required to defrost different weights of steak/chops, roast meat, poultry and chicken pieces.

### Child Lock

This great feature will help to protect your whole family from any unwanted use of your microwave. By setting the child lock feature, you can prevent unsupervised use of the microwave when there is no food/liquid in the microwave cavity.

### Kitchen Timer

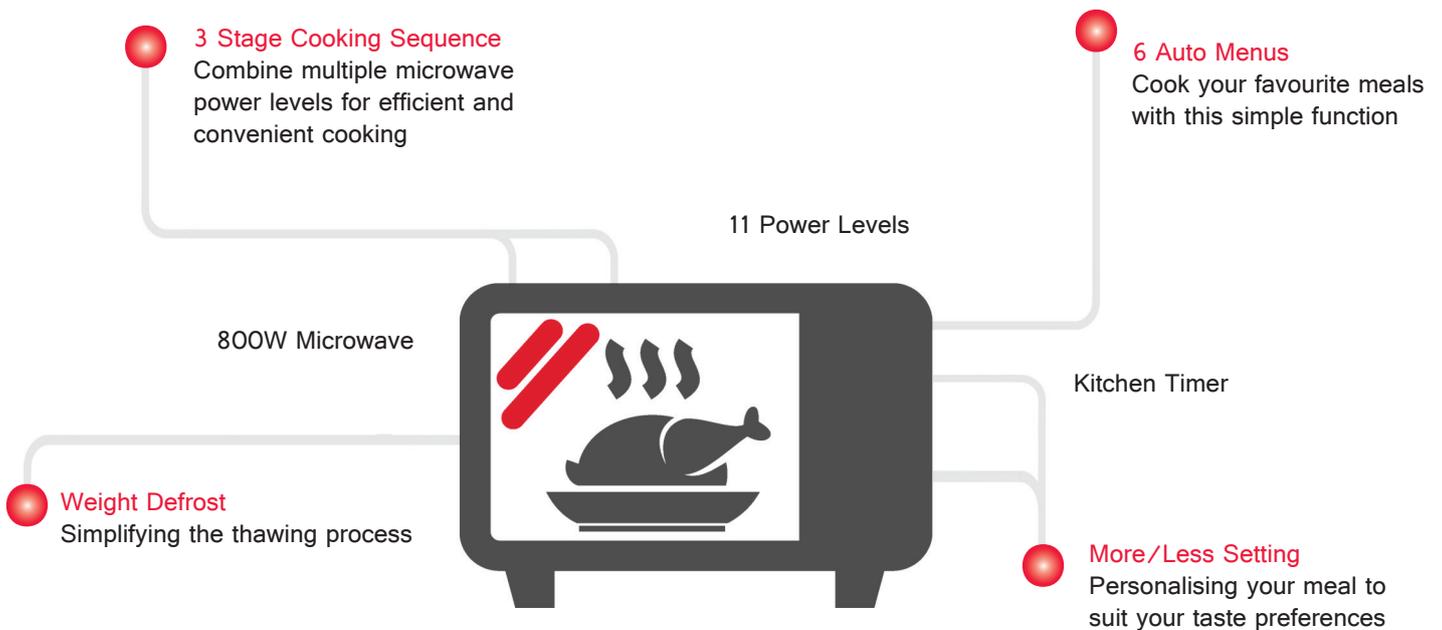

This function can be used for general purpose, such as timing a boiled egg being cooked on the stovetop or you can use it to measure the standing time of food.

### Auto Minute Function

This function provides pure simplicity in the kitchen. In one touch you can cook or reheat your food or beverage on 100% microwave power for 1 minute.

## TECHNICAL SPECIFICATIONS

Specifications	
Microwave Output Power	800W
Turntable	272mm
Finish	Black & Silver
Power Levels	11
