LED touch controls for easy use

Adjustable sealing time

Adjustable vacuum control with up to 99.9% vacuum

Advanced preservation of food for extended freshness

BENEFITS

Professionally perfect results
The AEG PrecisionVac™ vacuum sealer drawer brings a professional cooking standard into the home kitchen. With the unique chamber vacuum system, you can cook like a professional chef, by sealing in the flavour, moisture and nutrients of ingredients until you are ready to cook them to perfection.

Ultimate flavour control
By cooking food in a vacuum sealed bag using the SousVide method, all the moisture and juices in the food are locked in the bag. The flavour is enhanced as the flavouring ingredients infuse the food, while keeping smells separate and making cleaning effortless.

Preserve the very best in your food's flavour, freshness and texture
Preserve the moisture and freshness of ingredients for longer than standard refrigeration storage through professional vacuum-sealing. Prepare and seal the ingredients for your next function when it best suits you and be confident that freshness and flavour will be perfectly preserved until you are ready to cook or reheat pre-cooked meals.

Marinade and Infuse
No need to marinade overnight or for extended periods with the AEG PrecisionVac™ vacuum sealer drawer. The marinating and infusion cycle has a preset time of 8 minutes, freeing your time to focus on other important things around the home.
