### Features & Benefits

**Multi-shelf cooking**
Our AeroTech™ system circulates air evenly throughout the entire oven so dishes on the top shelf turn out just as perfect as food cooking on the bottom shelf.

**Quality and durability**
Every detail has been carefully crafted. The solid, perfectly balanced soft-close door and durable cooktop trivets all add up to an exceptional, premium range.

**Burner power & control**
Instant and immediate control from the highest to the gentlest heat. The finely tuned cooktop controls let you sear, stir fry or simmer a delicate sauce to perfection.

**Large capacity oven**
The generous 140L total capacity oven gives you plenty of space to cook multiple dishes at once.

**Easy to clean**
Your cooktop simply needs a quick wipe to keep it looking good as new for years to come, as the gas cooktop is made from a single piece of stainless steel that contains spills. The oven door, its inner pane of glass and runners can also be removed for easy cleaning.

**Even heat**
Accurate, electronically-controlled oven heat ensures a great result every time.
